OFFICIALS HOPE TO STAMP OUT FEVER

Every Day Sees Work of Cleaning City Nearer Done.

TOTAL CASES 1,301; DEATHS, 190

Indianapolis Health Officer Complimenta People of Crescent City—Authorities Claim They Are Controlling Situation.

New cases in New Orleans since 6 p. m. Friday—16.

Total to date—1,301.

Deaths today—2.

Total deaths—190.

In the expression of Dr. Victor Heune, health officer of Indianapolis, who is in New Orleans investigating fever conditions that the people of New Orleans are the "sanest and calmest" he had found between Chicago and New Orleans and may be found the attributive cause to what, in the opinion of Dr. Warner, is that the fever, though not under actual control, is being controlled.

New Orleans, August 21.—Today's reports of the fever situation develop no material change in conditions. The night was a sweltering one, but the early reports of the physicians and inspectors showed little variation from the usual number of cases and deaths. The federal authorities said that every day sees their system of work nearer to perfection, and the opportunities for controlling the sickness enhancing. The absence of a diminution in the daily report of new cases is a source of disappointment, but it is explained that the authorities must continue to insist upon notification of every case of fever if the campaign is to be successful.

There is no opportunity now to sift the cases of malaria and typhoid from yesterday.

Louisville and Nashville officials today had the new quarantine orders of Alabama explained. They do not affect the through travel out of here nor through travel into New Orleans, but are intended to prevent people in New Orleans from back-tracking into Alabama. It has been found that efforts have been made by people who have been to New Orleans to get to points in Alabama by going to Atlanta and other points in the south.

Summing up results of the campaign to date Dr. Beverly Warner said today that it was the opinion of the health authorities that while the fever could not be said to be under control, it is being controlled and that the chances are that there is no longer danger of a serious epidemic. Dr. Warner added that it was Dr. White's opinion that if it had not been for the splendid volunteer work which had been done by the citizens in screening and oiling and in taking other precausions recommended by the local health authorities, New Orleans today would probably be in the throes of an epidemic as devastating as were some of those of previous years. With conditions as they are today the feeling among all those officials in charge of the fight is one of high hope.

The death percentage continues to decrease. Each day shows a large number of patients discharged. The tendency is still toward a milder type of the sickness rather than toward one more virulent.

The large number of new cases testifies to the zeal with which the physicians are making report of cases within their practice. They turned in 39 of the 62 of the preceding 24 hours.

A party of 47 Italians have reached the city over the Mississippi Valley road. When they reached the union station they were detained and report of their presence there telephoned to federal headquarters. The Italians said that they had been chased out of the towns in East Baton Rouge, many of them at the point of shotguns. They tried to leave the train at different points on the way down, but were prevented from doing so. As there was

Can't Pass Through Alabama.

The fact that Alabama has issued an order prohibiting the passage of through passengers from infected points through that state has caused some annoyance here as it threatens to add to the difficulties of the railroads. Another evidence of extreme quarantine is given by Vicksburg, which has now put an embargo on all freight from Louisiana. The quarantine of the Mississippi towns against the gulf coast in that state bars all soldiers whom Governor Vardaman has sent from time to time to do service on the coast in maintaining the quarantine against Louisiana. The case at Starkeville, Miss., is that of a soldier who has been on quarantine duty on the coast.

Dr. J. M. Lindsley, of Nashville, has appeared at mass meetings here and sought to put questions to the lecturers. In the tenth ward he caused some excitement by rising and desiring to know how the fever got here—whether through the importation of a person of an infected mosquito.

Dr. Oechsner said now was not the time to try to settle how the fever got here—it wa sthe time for all to cooperate in the effort to stamp it out.

Situation in Mississippi.

Jackson, Miss., August 21.—Dr. Krauss, the yellow fever expert, attached to the state board of health, who went to Starkville yesterday to investigate a suspicious case at that point, this morning reported that the patient was suffering from malarial hematuria fever.

The morning report from Mississippi City says that there are no new cases there.

Surgeon Wasden, of the marine hospital, advises Secretary Hunter today that a rigid house-to-house inspection is being made of every town on the coast to determine whether there is any more yellow fever there.

Fever Scare in Pittsburg.

Pittsburg, August 21.—Quite a scare has been caused in this vicinity by the report that a party of 12 Italians, alleged to have evaded the yellow fever blockade at New Orleans, had arrived here. An immediate investigation by the authorities disclosed the fact that the Italians spent Wednesday in Pittsburg and Thursday at the home of a countryman on Ann street, homestead and had later departed for New York. The health department quickly fumigated the Ann street house and will maintain a strict quarantine for several days.

COTTON CROP IS DAMAGED.

Reports From Alabama Say that the Heavy Rains Have Hurt Them.

Selma, Ala., August 21.—The Associated Press representative has taken pains to ascertain the situation of the cotton crop in this section, and has has learned that the crop has been seriously damaged by the unprecedented rains of the past three weeks and this is the unanimous verdict of every planter interviewed by Hendrix Hardy, of Old Town precinct, who is well known for his conservatism in all things, and possessing a wide experience about the cotton condition of the whole county. The crops have been seriously damaged by the rains.

The full growkn bolls having matured, they are now cracking open, and the water from the rains have gotten in them and is now rotting the fruit. No more blooms are coming, and in his opinion, there will be no top crop to consider. The condition is very serious in his section, and from what Mr. Hardy has heard, it is general all over the county.

R. D. Shruptrine, from Safford, was seen, and his views coincides with those of Mr. Hardy.

Summing up the entire outlook for the cotton crop, it is hardly probable that 75 per cent of the crop made last year will be made this year in Dallas.

Young Woman Acquitted.

Birmingham, Ala., August 21.—Miss Alice Exell, the Jonesboro young woman who shot Emmett Finch with a shotgun some ten days ago because she resented the young man's attentions, was acquitted before Justice D. W. Houston. Her attorney entered a plea of insanity by reason of insan-

PEACE CONFERENCE REACHES A CRISIS

Envoys Unable to Continue In Their Deliberations.

APPEAL TO PRES. ROOSEVELT.

Russia Declares She Will Not Pay One Cent of Tribute to Japan—Negotiations May Be Broken Off Entirely.

Portsmouth, N. H., August 21—President Roosevelt has stepped into the breach and is making a last desperate effort to save the peace conference from shipwreck. That in a sentence is believel to be the situation this morning.

Just what the president is doing has not transpired, but it is regarded as certain that he has appealed both to the Tokio and St. Petersburg to induce the warring countries to show a spirit of concession and not allow the conference to go onto the rocks next Tuesday.

Mr. Griscom and Mr. Meyer may have been instructed to make direct appeals to the emperors of the two countries. If the co-operation of France and England, the allies of the respective belligerents, is secured, something may be accomplished. In the last resort the main obstacle to the success of the peace negotiations is certain to prove to be the question of indemnity.

"Russia will not pay a copek of tribute," is the language of M. Witte. That is believed to be Russia's last word on that question. The question of the cession of Sakhalin may be arranged. But unless Japan relinquishes her claim for the cost of the war, hope is gone.

Russians at Oyster Bay.

Oyster Bay, L. I., August 21.—A representative of the Russian peace plenipotentiaries at Portsmouth, N. H., will arrive here late today or tomorrow to confer with President Roosevelt. The identity of the representative is not disclosed.

His mission will be to consult the president with a view to bringing about an agreement between the Russian and Japanese envoys that will prevent a final rupture between the two sets of plenipotentiaries. The representative will come to Oyster Bay by direct invitation of the president, which was transmitted to M. Witte last night after he had a conference with Baron Kaneko who came here late yesterday as a representative of the Japanese government. Neither the president nor Baron Kaneko would disclose any of the details of their conference, but after the baron left at 6 o'clock an important message was sent to Herbert D. Pierce, asistant secretary of state. While details of these communications are lacking, it is known they represented an earnest effort on the part of the president to bring the envoys into an agreement that would be satisfactory to both belligerent governments. Whether the president urge that concessions be made by either side or suggested any other means by which an agreement might be reached, is not known. At any rate, the communications from the president sustained an invitation for a representative Russian to visit him at Sagamore Hill as soon as convenient in order that the subject might be considered fully.

The envoy to the president probably will make the journey to Sagamore Hill in part by rail and in part by water.

The naval yacht Sylph is expected to meet him at some point on the lower New England coast and convoy him direct to Sagamore Hill.

While messages are being exchanged today between Oyster Bay and Portsmouth on the subject, the time of the arrival of the envoy is not known.

If England will now bring pressure to bear, as it is definitely stated she is now prepared to do, the situation may be saved.

As an indication of intervention by President Roosevelt came the departure early today of Baron Rosen, the Russian ambassador for Oyster Bay, and had arranged to take the 10 o'clock Shore Line express over the New York, New Haven and Hartford railroad from Boston. In connection with his trip special arrangements were made for the train to stop at New Rochelle, to meet the Sylph and proceeded to Oyster Bay arriving there some time this afternoon. He will dine with the president and probably return to Magnolia either late tonight or tomorrow morning. He went by direct invitation of the president communicated to him early this morning by Assistant Secretary Pierce and so careful was he to conceal his movements that before he left, the official announcement was authorized that he was going to Magnolia. His change of plan was not communicated to the Japanese until a telegram was received here from Boston saying that Baron Rosen had boarded the Bay State limited for New York at 10 o'clock.

RUSSIA'S NEW CONSTITUTION.

Text of Ducument Shows that the Czar Will Have Power.

St. Petersburg, August 21.—The text of the document constituting a Russian parliament discloses many points of special interest to foreigners, enjoying constitutional government.

Safeguards for the maintenance of the autocratic power of the emperor crop out continually in the course of the lengthy document. Although the members are to be elected for a five-year term paragraph 3 provides that the Douma can be dissolved by the emperor before the expiration of the term of five years and new elections ordered by imperial ukase.

Paragraph 4 sets forth that the length of the sessions af the douma and the adjournments during the year shall be determined by the emperor. Paragraph 10 provides that the president of the douma shall report to the emperor. Other paragraphs provide that in case of dispute between the cabinet ministers and the douma in regard to bills, the emperor shall have the final word as to the disposition thereof. The oath to be taken by the members is as follows

"We promise to perform our duties to the best of our knowledge and ability in all loyalty to his majesty and mindful only of the welfare of Russia."

MISSIONARY IS KIDNAPED.

Asiatic Woman Who Became Converted to Christianity Missing.

New York, August 21.—The office of the Missionary society of the Methodist Episcopal chruch was advised today by Bishop William F. Oldham, missionary bishop of the Southern part of Asia, on July 18, Sooboonagam Ammal Madras, has been kidnaped.

For ten years Sooboonagam Ammal has been the most important woman convert from Brahminism in the Madras. She came from Pantula sect, the priestly class and strictest sect of the high caste Hindus. Her father was the first to take a double degree in the university of Madras. Later, he became one of the examiners of the university and was high in the government service. Her uncle is the great high priest over the Saivite Brahmins.

Sooboonagam Ammal was in the United States from April 26, 1900 to Oct. 30, 1901.

It was while driving in her bullock cart among the villages that she was forcibly seized, hurried into a closed carriage and driven off. In his letter Bishop Oldham says:

Woman Wanted To Be Engineer.

Macon, Ga., August 21.—A well-dressed woman of not over 20 years, giving her name as Miss Bessie Sellers, was arraigned in police court here after unusual conduct at the union station which caused a charge of disorderly conduct to be made against her by the arresting officer. While the engineer and fireman on the Central train for Savannah were oiling the machinery for the departure, she mounted the engine and demanded charge. Her persistent efforts to be placed in command of the monster locomotive, soon to make the run, caused the engineer to call for an officer, and the stranger, in a dainty dress, was escorted much against her will to the

LITTLE DAMAGE DONE, HOWEVER

The Authorities Are Unable to Determine Whether It Was a Practical Joke or the Work of Mischief Maker—Violent Explosions Were Used.

Saratoga, N. Y., August 21.—Two loud explosions in quick succession in different sections of Saratoga startled visitors late last evening and set afloat stories about dynamite plots. While very little actual damage was done there can be no doubt that some violent explosive was used. The question is whether it was the work of a practical joker or of some person intending mischief who failed to carry out his plans. The first explosion occurred in a narrow alley between the United States club, conducted by Joseph Ullman in Woodlawn avenue and adjoining acreage. The second explosion occurred about half an hour later at a point in Circular street a block above the grounds of Richard Canfield's Saratoga club house. In both instances the noise was great and those in the neighborhood were under the impression that bombs had been used. The scene of the first explosion is in an alley about three feet wide which is always blocked by a boothlack stand. So far as can be judged, the explosive was placed directly under the stand which was blown to atoms. The walls were smeared with the blacking oil and pastes. All of the windows on that side of the garage was broken as was a glass sign. Some damage was done to the building. All of the windows of the club house were broken at the time and those on the basement floor were broken. A large crowd quickly gathered, including hundreds of guests in the Piccadilly hotel.

When the excitement was at its height around the United States club the sound of the explosion was heard and the sharp report took people to the scene to discover what had happened.

The second explosion occurred in a clump of bushes in the park, and much closer to the Kensington hotel and to the Canfield club house. People dining and playing in the Canfield place did not hear the noise as distinctly as did those in the open air. Late in the night several crudely written slips were found in the corridors of a leading hotel asserting that dynamite in large quantities had been found in the two houses and warning the people to be careful. The slips led the police to believe the explosions were the work of anarchists.

Anxiety Felt For Ship.

New York, August 21.—No news has yet been received from the steamship Athos, now long overdue at this port. Much anxiety is felt for the safety of the vessel. When last heard from the ship was drifting with crippled engines about 450 miles eastward of Jacksonville. Ellison and his crew of 27 men, James A. Donald, Jr., the 14 year old son of the owner and one of his schoolmates are on board the ship. If word is received within the next 24 hours it is expected the navy department will send out a vessel to search for the Athos.

Fine Collection of Fish.

New York, August 21.—The Michigan fish commission car, in charge of Director Conway, of the Detroit aquarium, arrived here last night with catches of lake fish which he proposes to trade for the salt water specimens corralled by the New York aquarium fish collectors in the Gulf and native waters. The Detroit collection was transferred to New York's aquarium in Battery Park and today Director Conway will take in exchange what is considered to be one of the finest collection of tropical and north

NEWS OF CITY AND COUNTY CONDENSED

THE YELLOW FEVER.

The Deaths and New Cases Are on the Decrease.

New Orleans, August 21.—The outlook grows better each day and the physicians apparently have the contagion well in hand. The discovery of cases outside the city is the only cause for alarm.

There were only 19 cases reported up to noon today and two deaths.

DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It is the great medical triumph of the nineteenth century; discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, uric acid, catarrh of the bladder and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's **Swamp-Root** is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work and in private practice, and has proved so successful in every case that a special arrangement has been made by which all readers of this paper, who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root, and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The regular fifty-cent and one-dollar size bottles are sold by all good druggists. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

WEST END SALE.

Green Chaires Purchased Fine Tract of Land Near Fannin.

Real estate seems lively not only in the city, but throughout the entire county, and a general air of confidence of the future is apparent everywhere.

Green Chaires of Old Town has purchased through J. W. Patton a tract of 560 acres in the West End, near Fannin. The tract is partly timbered, the remainder cleared for farming purposes. It is one of the most fertile tracts in that section, and Mr. Chaires' friends are congratulating him upon the purchase.

It is understood that the demand for real estate is also good in the East End, but owners of country property as a rule have no desire to sell.

Will Keep Them Cool.

The congregation of the Methodist church will have no trouble in keeping cool in future, as three fans have been installed, and there will be no inconvenience from the heat.

"My congregation in a large measure have been accustomed to nodding," remarked Pastor Nixon in a good-natured way, "but I have the fans now, and inasmuch as they will tend to keep the crowd cool, they could do nothing more than to give the pastor enough attention to keep awake during the service."

The friends of Mr. Nixon present appreciated this remark, because they realize that he is one of the best in the Florida Conference. While they will continue to enjoy the sermons, they will nevertheless appreciate the fans, which will save a great deal of "extra effort" in trying to keep cool.

Public is Aroused.

The public is aroused to a knowledge of the curative merits of that great medicinal tonic, Electric Bitters, for sick stomach, liver and kidneys. Mary H. Walters of 546 St. Clair Ave., Columbus, O., writes: "For several months I was given up to die. I had fever and ague, my nerves were wrecked; I could not sleep, and my stomach was so weak, from useless doctors' drugs, that I could not eat. Soon after beginning to take Electric Bitters, I obtained relief, and in a short time I was entirely cured." Guaranteed at all drug stores; price 50c.

Attention, K. of P.

The regular weekly meeting of Mt. Vernon Lodge No. 20, Knights of Pythias, will be held at the lodge room over Dutton's bank this evening at 8 o'clock, at which a full attendance is desired, and visiting brothers will receive a cordial welcome.

Cures Sciatica.

Rev. W. L. Riley, L. L. D., Cuba, New York, writes: "After fifteen days of excruciating pain from sciatic rheumatism, under various treatments, I was induced to try Ballard's Snow Liniment; the first application giving my first relief and the second entire relief. I can give it unqualified recommendation." 25c, 50c, $1.00. Sold by W. M. Johnson.

Another Important Transfer.

The transfer of property in the vicinity of the new University grounds has been so frequent and steady since Gainesville secured the location of the University that it has been difficult to keep up with same. No less than one hundred and fifty lots have passed into new hands, and still the activity continues.

The latest transaction was the transfer of eighteen lots, which Dr. D. N. Davis of Dunnellon reports as having purchased. Dr. Davis is apparently well pleased with Gainesville, as has been demonstrated by this purchase. He states that he proposes to erect cottages upon six of the lots, and will likely place the remainder upon the market.

Preached Fine Sermon.

Rev. S. B. Rogers of the First Baptist Church was greeted at the union service, Methodist church, Sunday evening, by one of the largest congregations of the season, despite the warm weather.

Mr. Rogers, who is one of the most pleasing and interesting speakers in the State in his profession, held his congregation for nearly forty minutes, and it was one of the most practical and forcible sermons ever heard from a Gainesville pulpit.

The church has been equipped with electric fans, which make the place very comfortable now.

East Gainesville Progress.

While it is true that every section of the city is progressing in the matter of building, East Gainesville is receiving her share of the improvement. Many handsome homes have been completed in that section and many more are under course of construction. Among the latter is the house of August Wenski, which is located at the corner of Alachua avenue and North Evans street. This building will be two stories in height and will contain eight rooms.

Mr. Wenski proposes in a short time to erect two more cottages on his East Gainesville property.

ANOTHER BLIND TIGER IS CAUGHT

Had Been Working in a Tie Camp Near Trenton.

ONE COLORED MAN NOW IN JAIL

Another Gentleman of Color Arrested for Carrying a Revolver—One Bound Over to the Circuit Court and the Other Fined a Hundred Dollars.

Deputy Sheriff Beach of Trenton arrived in the city at 6 p. m. Monday with Henry Holmes, a colored chap, who has been engaged in the blind tiger business near that place. Deputy Beach had been a little suspicious of the work going on in a tent about two miles from Trenton in a tie camp, and when he caught his man in the act he nabbed him.

Holmes was taken before Justice Drummond of Trenton, and entered a plea of guilty. He was bound over to appear at the next term of the circuit court, and in default of $350 bail, will await further action in the county jail in this city.

A half-dozen bottles containing whiskey were found in the tent, which Deputy Beach also captured.

In the raid a very formidable looking revolver was found, which belonged to Rev. R. R. Rivers, a colored parson, who "preys" more than he preaches. His reverence owned up to the fact that the weapon belonged to him, and he was fined $100, which he paid.

These fellows have been dodging the officers for some time and Deputy Beach has been on the watch to get a sure thing, and he is to be congratulated on his success. He says these chaps must certainly go and he will keep them on the run, now that he has them started.

SCHOOL FOR WOMEN.

Florida's College for the Education of Her Daughters.

Situated upon one of the heavily wooded red clay hills of Leon county, just to the west of Tallahassee, stand the buildings that are destined to become the seat of learning of the young women of Florida. The famous Buckman law abolished the Florida State College but created the Florida College for Women. The Board of Educational Control, in charge of the institutions of higher education, intend that the Female College shall be one of the finest academies in the South. The first sure step in this direction was the selection of Prof. A. A. Murphree as president and the approval of a faculty named by the president.

Mr. Fred. W. Kettle, secretary to President Murphree, is in the city for a few days in the interest of the college. Mr. Kettle is making a tour of the State for the purpose of making known the scope of the institution under the new law. His aim is to meet the parents and guardians whose daughters and wards are ready to enter this college and to interest them in this school in calling attention to its many advantages. Another year some one will have a similar mission to perform in behalf of the Gainesville University.

Like Gainesville, Tallahassee has exceptional advantages as an educational center. It has an ideal climate, particularly through the school months. The air is dry and bracing and conducive to effective work. The location is both beautiful and healthy, and, for the present, the buildings are adequate and delightfully arranged. The social environment is another attraction. The good women of the city of Tallahassee have the success of the college at heart and will do their share toward extending students a cordial welcome and gracious hospitality.

The college consists of several departments, including the college of liberal arts, school of music, school of art, department of domestic science and physical culture. There is also the State school for teachers. These departments offer the young people of Florida exceptional facilities for securing a generous and broad education and at a nominal cost. The college is maintained largely by State appropriation and, therefore, tuition is free except in the schools of music and art. The total cost for board and incidentals does not exceed $120 for the scholastic year of thirty-four weeks.

The new catalogues of the College for Women are now being mailed to all parts of the State. Parents and guardians interested are urged to write at once to President A. A. Murphree at Tallahassee for a catalogue and for further information regarding this, one of the two prominent educational institutions maintained by the State.

MR. BROWN PLEASED.

President of Fair Association Admires Alachua County Energy.

President Thos. J. Laud Brown of the Florida State Mid-Winter Fair Association appreciates the energy of the Alachua county people in their quick and united action looking towards a fine exhibit of Alachua county's resources at the State Fair, which will be held in Tampa from November 15th to 30th of the present year, and in a letter to the vice-president for this county does not hesitate to say so.

"I am glad to note the energy taken by your people in organizing promptly. Alachua county is one of the wealthiest in the State from every point of view and I feel sure that your exhibit will be inferior to none and equaled by few, if any, because you have gone about it right and have perfected your organization in a thorough and systematic manner. Much success to old Alachua and her people," President Brown writes.

They Appeal to Our Sympathies.

The bilious and dyspeptic are constant sufferers and appeal to our sympathies. There is not one of them, however, who may not be brought back to health and happiness by the use of Chamberlain's Stomach and Liver Tablets. These tablets invigorate the stomach and liver and strengthen the digestion. They also regulate the bowels. For sale by all druggists.

KIDNEY TROUBLES

Increasing Among Women, But Sufferers Need Not Despair

THE BEST ADVICE IS FREE

Of all the diseases known, with which the female organism is afflicted, kidney disease is the most fatal, and statistics show that this disease is on the increase among women.

Mrs. Emma Sawyer.

Unless early and correct treatment is applied the patient seldom survives when once the disease is fastened upon her. Lydia E. Pinkham's Vegetable Compound is the most efficient treatment for kidney troubles of women, and is the only medicine especially prepared for this purpose.

When a woman is troubled with pain or weight in loins, backache, frequent, painful or scalding urination, swelling of limbs or feet, swelling under the eyes, an uneasy, tired feeling in the region of the kidneys or notices a brick-dust sediment in the urine, she should lose no time in commencing treatment with Lydia E. Pinkham's Vegetable Compound, as it may be the means of saving her life.

For proof, read what Lydia E. Pinkham's Vegetable Compound did for Mrs. Sawyer.

"I cannot express the terrible suffering I had to endure. A derangement of the female organs developed nervous prostration and a serious kidney trouble. The doctor attended me for a year, but I kept getting worse, until I was unable to do anything, and I made up my mind I could not live. I finally decided to try Lydia E. Pinkham's Vegetable Compound as a last resort, and I am to-day a well woman. I cannot praise it too highly, and I tell every suffering woman about my case." Mrs. Emma Sawyer, Conyers, Ga.

Mrs. Pinkham gives free advice to women; address in confidence, Lynn, Mass.

Fresh Water Pearls.

The river mussel and some other fresh water bivalves often contain beautiful pearls. In Saxony the trade in these dates from 1610 and a code of rules to regulate it. The fish are placed in prepared beds and examined every five years. From two to ten pearls are yielded by each. A similar and profitable pearl cultivation is carried on in Sweden and in other parts of Europe. The fact that grains of sand and other foreign substances that intrude within the shells are covered in course of time with layers of pearl has been taken advantage of by the wily Chinese. Opening the shells of suitable bivalves and holding them open with wooden wedges, they insert small objects of wood, stone or metal and restore the shellfish uninjured to their beds. Irritated by these pieces, the mollusks soon cover them with coatings of mother-of-pearl of bright purity and luster and thus convert them into articles of considerable commercial value.—London Globe.

Herbine

Renders the bile more fluid and thus helps the blood to flow; it affords prompt relief from biliousness, indigestion, sick and nervous headaches, and over indulgence in food and drink. G. L. Caldwell, agent M. K. & T. R. R., Checotah, Ind. Ter., writes, April 18, 1903: "I was sick for over two years with enlargement of the liver and spleen. The doctors did me no good, and I had given up all hope of being cured, when my druggist advised me to use Herbine. It has made me sound and well." 50c. Sold by W. M. Johnson.

The Enemies of Success.

Bright, cheerful hopeful thoughts and a strong belief in one's own ability to accomplish the thing undertaken are friends that will insure success. The ambitious person should learn as early in life as possible to pick out the friends and enemies of success, and in many cases it will be found that the greatest enemy resides within himself. Morbid thoughts, for example, are infinitely greater hindrances to success than opposition from outside, and no health, no beauty, no harmony, no real success can exist in the atmosphere of abnormal melancholy or morbid ideas. Overcome the enemies to success within yourself and you will have done much toward reaching the goal of your ambition.—London Answers.

Nothing on the Market Equal to Chamberlain's Colic, Cholera and Diarrhoea Remedy.

This fact is well known to druggists everywhere, and nine out of ten will give their customers this preparation when the best is asked for. Mr. Obe Witmer, a prominent druggist of Joplin, Mo., in a circular to his customers, says: "There is nothing on the market in the way of patent medicine which equals Chamberlain's Colic, Cholera and Diarrhoea Remedy for bowel complaints. We sell and recommend this preparation." For sale by all druggists.

PURE BLOOD

INSURES A CLEAR SKIN

When Eczema, Acne, Tetter, Pimples, or other skin diseases make their appearance it is a sure sign that the blood is filled with humors and burning acids. These being forced through the pores and glands burn and blister the skin, producing the eruptions which are usually accompanied with intense itching, and are disfiguring and humiliating.

Years ago my blood was bad, as evidenced by skin eruptions on different parts of the body, and other symptoms, so I concluded to try S. S. S., knowing it to be highly spoken of. After using a number of bottles—do not remember now just how much—my blood was thoroughly purified and enriched and I was relieved of all eruptions and manifestations of impure blood. I believe S. S. S. to be an excellent blood medicine, and any one in need of such a medicine would do well to use it. They will find it a perfect cure as it proved to be in my case. MRS. C. E. SHOEMAKER. Alliance, O., 516 E. Patterson St.

While external treatment relieves temporarily it does not reach the real cause of the disease, because it does not go into the blood. S. S. S., a perfect blood purifier, neutralizes these acids and humors, and by strengthening and toning up the Liver, Kidneys and Bowels, the natural channels of bodily waste, disposes of them instead of allowing them to be forced to the surface through the skin. S. S. S. is the greatest of all tonics for building up the entire system, increasing the appetite and helping the digestion. S. S. S. cures all skin diseases promptly and permanently, leaving the skin soft and smooth. Only by keeping the blood pure can we hope to have a clear skin. Fear of Undermining Buildings.

Chicago, August 21.—Practically all construction work on all the underground of the Illinoise Central was stopped Friday by the order of Mayor Dunne and no work will be permitted to go on until the company devises some method of constructing its connections by passes and new drifts to prevent the danger of the sinking of buildings and the settling of the streets. This action was taken after the report of the special committee of experts which investigated the tunnels was considered and it was deemed necessary to take some immediate steps to protect the office buildings and street from the results of its undermining.

Disabled Ship Arrives in Port.

New York, August 21.—The French line steamer LaSavoie came into port today partially disabled, one of her engines, having gone out of commission on Thursday. The steamer had little trouble in working along under a single engine until the narrow channel leading up to the city was reached, when she received assistance. A tug boat which had been asked for by wireless telegraph, helped the big liner into the harbor and she came up to her dock without accident. An examination of the engine disclosed the fact that the intermediate shaft was broken.

A Touching Story

Is the saving from death of the baby girl of Geo. A. Eyler, Cumberland, Md. He writes: "At the age of 11 months, our little girl was in declining health, with serious throat trouble, and two physicians gave her up. We were almost in despair, when we resolved to try Dr. King's New Discovery for consumption, coughs and colds. The first bottle gave relief; after taking four bottles she was cured, and is now in perfect health." Never fails to relieve and cure a cough or cold. At all drug stores; 50c and $1; guaranteed. Trial bottle free.

Veteran Telegrapher Dead.

Cleveland, August 19.—L. A. Summers, a veteran telegraph man, is dead at the home of his son here, of dilation of the heart, aged 66. He had been connected with the telegraph business practically since its inception, having been associated with J. H. Wade, Anson Stager and other prominent Western Union officials. Mr Somers was chief operator of the government telegraph, controlling the telegraph service in the civil war with headquarters at Washington.

Cured Hay Fever and Summer Cold.

A. J. Nushbaum, Batesville, Indiana, writes: "Last year I suffered for three months with a summer cold so distressing that it interfered with my business. I had many of the symptoms of hay fever, and a doctor's prescription did not reach my case, and I took several medicines which seemed to only aggravate my case. Fortunately I insisted upon having Foley's Honey and Tar and it cured me. My wife has since used Foley's Honey and Tar with the same success." J. W. McCollum & Co.

INDUSTRIAL EDITION.

On Thursday, November 16, 1905, the publisher of The Gainesville Daily Sun will issue an Industrial Edition of this paper, which will comprise a complete descriptive write-up of Alachua county, including the city of Gainesville, giving a description of its Industries, Mineral Products, Resources of the Soil, as well as its Educational Advantages, Future Prospects and its adaptability as a home for those seeking a location for business activity or for health.

This edition will be printed on high grade book paper, profusely illustrated, with an illuminated cover that will be highly attractive. The edition will comprise 20,000 copies of 36 pages each, including the cover, and will be of great value to those who desire to send them away to their friends, as the facts it contains will be thoroughly reliable.

A limited space will be reserved in this Industrial Edition of The Sun for the use of legitimate advertising, and reliable business houses will find it to their advantage to communicate for space at the earliest possible date.

The Object

Of this edition is to have a greater portion of the 20,000 copies for FREE distribution at the Florida State Mid-Winter Fair at Tampa, November 15 to 30, 1905, to familiarize the people who visit that exhibition with the advantages offered to settlers in Alachua county, the county of varied resources and the Hub of the Peninsular State of the South.

A FACT PROVEN.

Should Convince Even the Most Skeptical of Its Truth.

If there is the slightest doubt in the minds of any that Dandruff germs do not exist, their belief is compelled by the fact that a rabbit innoculated with the germs became bald in six weeks' time.

It must be apparent to any person therefore that the only prevention of baldness is the destruction of the germ—which act is successfully accomplished in one hundred per cent. of cases by the application of Newbro's Herpicide.

Dandruff is caused by the same germ which causes baldness and can be prevented with the same remedy—Newbro's Herpicide.

QUESTION OF BONDS.

Many people look upon the question of bonding as though it were the heaping of an unnecessary burden upon the people to be used where it is not absolutely necessary, and that the municipality would be better off if it had never consented to such a loan for public improvements. The facts are that the city or the municipality is the people and the people have no paid up capital to carry on the government, and each property holder is a partner according to the assessed valuation of his real and personal estate. It takes money to run the financial affairs of the city, and as there is no money at hand, it must be raised by selling bonds, which is a promise to pay so much for value received.

By the issuance of bonds and inducing enterprises to come into our midst we realize the benefits of these institutions while we are paying for their location here, and in such manner our city is advancing in business prosperity and increasing in development. Every man in the city, who has the city's interests at heart, is a sharer in the investment, as the demand for property enhances its value and the advantages offered bring more people to our city to expand every business and develop new enterprises.

By the issuing of bonds the city is allowed to do business at a small rate of interest, because the capitalist has confidence in the push and enterprise manifested, and has idle money that he is not afraid to advance to such cities rather than loan it out at a higher rate in small sums and take the chances of not getting back his principal.

There is no city and no government in the world that has ever reached a high state of development without doing it on borrowed capital, and the ones that even are in debt so far that they have no hope of ever paying, are not in the least worried, as the men who loan the money don't care for anything but the interest, and they feel sure that the class of people which has the courage to push their locality to the front by pluck and business enterprise are sure to be a safe municipality to trust.

Sewers and other utilities are necessary for the advancement of a city of any size, and the only way to get such money at a reasonable rate of interest is by a bond issue which is payable by the entire people who are to receive the benefit, and the low rate of interest relieves the people of the burden of taxation in a manner that can be accomplished in no other way.

RIGHT SORT.

The mayor of Gainesville is one of the progressive sort. Last week he returned an ordinance authorizing an election for bonding that city for $50,000 for sewerage because, he declared, "it was not broad enough." In returning it he recommended that the call should be for an election to bond for $100,000, and that all the modern improvements be obtained for this growing little city. With such a mayor and equally progressive citizens, how can a town help but grow?—New Smyrna Breeze.

We assure The Breeze that the mayor of Gainesville is always for progressive methods and everything that will promote the welfare of our city. He is also backed by an equally progressive citizenship that is bound to push to the front. Gainesville has many natural advantages, but we need some improvements to help what nature has so generously bestowed, when we will advance in every way. We will not retrograde, but move forward.

Secretary Bonaparte has done one thing to make himself solid with the clerks—he has excluded bill collectors from the department during working hours. But he should notify the police to keep the sidewalks clear.

Newnan's Lake, only a short distance from Gainesville, could be made one of the loveliest resorts in Central Florida. It is a fine location for cottages and a hotel. With a trolley line to Newnan's Lake we could have a place where we could go on Saturday night and remain over Sunday, returning to our work on Monday morning refreshed and ready for the week's struggle. A day of rest, with no cares, is better than a month at the seashore with all your business letters forwarded to you to occupy the time you should have for rest.

It now seems that Divine Providence interfered in the appointment of county judge for Marion county. The Banner says that the rain was the cause of the non-attendance of the Democratic County Committee at the meeting and no action was taken. A Democratic committee that will let anything short of a cloud-burst stop its deliberations needs to be reorganized and have some men of business placed on its membership.

This being an off year, the advocates of tariff reform are beginning their work in earnest. Governor Cummins of Iowa has just closed a very successful engagement at Chicago, where he brushed up his "Iowa idea," only to lay it aside when the politicians of the Republican party so order.

Rev. W. J. Carpenter has opened the campaign in Marion county for the local option election and The Ocala Banner says he made an able address. Wonder if he will get raked over the coals by Br'er Roberson for trying to save men from the curse of liquor?

People who are inclined to make sport of Christian Science will learn that there is something substantial in it, when they are made aware of the fact that Mrs. Eddy has received $1,000,000 from that source in the last ten years.

Weir Park is becoming a very popular place for the people of Marion county as a resort. It is a very attractive location.

How to Get Well.

Every organ of the body is directly connected with the brain by nerves. The nerve cells in the brain generate nerve force—power—and send it to the organ through these nerves, and this nerve-force gives life and action. The organs work perfectly when there is sufficient nerve power. Lack of nerve force weakens the action of an organ and it works imperfectly—becomes sick.

Two-thirds of all sickness is thus due to weak or deranged nerves; it is therefore advisable to take Dr. Miles' Restorative Nervine, because it makes nerve energy.

When you cure the nerves you remove the cause, and that's the way to get well.

"Dr. Miles' Restorative Nervine cured me of nervous prostration after every other effort had failed to give me relief. My trouble seemed to begin with a general loss of strength and a breaking down of the nervous system. I suffered from headache, constipation and fluttering or palpitation of the heart. My appetite failed and I was so nervous and restless that I could not sleep at night. My husband, who is a druggist, brought me a bottle of Nervine. It helped me from the start and I continued using it until I had taken six bottles. My health was completely restored."

MRS. SILAS M. MOREHOUSE.
North Adams, Mich.

Dr. Miles' Nervine is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money.

BOY CHARGED WITH MURDER.

He Shot a Little Seven-Year-Old Girl and Killed Her.

Detroit, Mich., August 21.—George Goodson, a 11-year-old schoolboy, is under arrest charged with the murder of Hannah McQuaide, aged 7, in the town of Greenfield, just outside the west city limits of Detroit, last night. The little McQuaide girl, the daughter of Peter McQuaide, a gardener, was driving toward the McQuade home in company with her two sisters, aged 10 and 12.

Young Goodson and three companions, boys about the same age, who had been shooting sparrows along the road, appeared and attempted to climb upon the rear of the wagon. The girls ordered them off and whipped up the horses. Goodson, it is charged, became enraged and shot at the girls with the flobert rifle he was carrying. The bullet struck the little girl in the temple, killing her almost instantly.

Goodson's companions, who are also in custody, declare that the bullet which struck the girl was aimed at a sparrow on a near-by telegraph pole.

A Worm Killer.

J. A. J. Montgomery, Puxico, Wayne county, Mo., writes: "I have little twin girls, who have been bothered with worms all their lives. I tried everything to relieve them, which failed until I used White's Cream Vermifuge; the first two doses brought four worms from one of them, the next two doses, twelve, one of them measuring twelve inches; the other child was only relieved of four worms. It is an excellent medicine." White's Cream Vermifuge is good for children. It not only destroys worms—it helps the child to perfect growth, wards off sickness. Sold by W. M. Johnson.

Jack Bone Will Not Hang.

Atlanta, August 21—The prison commission heard the application for clemency in the case of Jack Bone, under sentence to hang in Floyd county, on August 25, and, after the hearing, decided to recommend a commutation of his sentence to life imprisonment. Bone was represented befor ethe commission by F. W. Copeland, of Rome, and R. R. Shropshire, of Atlanta. His two sisters were present during the hearing. The petition requesting executive clemency on his behald was signed by about 1,300 citizens of Floyd and Fulton counties.

Given Up to Die.

B. Spiegel, 1204 N. Virginia St., Evansville, Ind., writes: "For over five years I was troubled with kidney and bladder affections which caused me much pain and worry. I lost flesh and was all run-down, and a year ago had to abandon work entirely. I had three of the best physicians who did me no good, and I was practically given up to die. Foley's Kidney Cure was recommended and the first bottle gave me great relief, and after taking the second bottle I was entirely cured." J. W. McCollum & Co.

Chinese Must Stop Boycott.

Pekini, August 21.—It is learned on good authority that the American government has notified the Chinese government that all negotiations for a new convention to discuss the Chinese exclusion act will be discontinued until the anti-American boycott is stopped and has also given notice that China will be held responsible for any loss sustained by reason of the boycott. The Chinese authorities state that they will take energetic steps to stop everything of an illegal character, but that they cannot stop the boycott.

Most victims of appendicitis are those who are habitually constipated. Orino Laxative Fruit Syrup cures chronic constipation by stimulating the liver and bowels. Orino Laxative Fruit Syrup does not nauseate or grip and is mild and pleasant to take. Refuse substitutes. J. W. McCollom & Co.

Posse Captures Murderer.

Huntington W. Va. August 21.—William Ellis was captured near Logan by a posse of which his father was a member, and is held on a charge of having killed Robert Murphy, the deputy sheriff who brought a prisoner here from Virginia. Ellis says that he mistook Murphy and his party for others with whom he had had trouble.

Fiendish Suffering

SOLONS ADJOURN SINE DIE.

...duce Liquor Tax Is the Last Important Act of Body.

Atlanta, August 21.—The general assembly of Georgia was adjourned sine die at exactly 9:40 o'clock Friday night.

During the evening session, the last discord in the house on the general tax bill gave way to harmony by the recession of the house from its position on the liquor taxes as regards social clubs and dining cars. One or two other bills were passed, but most of the evening was given over to felicities of one sort or another, including the presentation of a handsome gold-headed cane to Mr. Hall, of Bibb, by the new county committee.

After the final adjournment, the members began bidding each other farewell, while a large group gathered in the center aisle and sang "God Be With 'Till We Meet Again," and "The Old-Time Religion."

At the final session of the senate the usual scenes attendant upon the closing hours were enacted. A committee composed of Senators Reid, Reed and Wilcox was appointed to notify the governor that the senate had completed its labors, and was ready to adjourn.

A resolution offered by Senator Candler thanking President West, President Pro Tem Bond, Secretary Norman, and all associated with him, for their courtesies during the session, was adopted.

The senate then notified the house that the senate was ready for adjournment, and at 9:40 adjourned sine die.

Reduce Liquor Tax.

The big question was settled at Friday afternoon's session of the house. The body receded from its position on the liquor tax, came to the senate's terms of $500 on all barrooms and dispensaries, and put itself in shape to adjourn after a short night session.

No more interesting vote has been witnessed at the present session than that on the motion of Mr. Felder, of Bibb, that the house recede from its disagreement to the senate amendment reducing the liquor tax from $500 to $300.

This vote came after a battle royal in which Mr. Wright, of Floyd; Mr. Covington, of Colquitt, and Mr. Kelly, of Glascock, fought with all their might for the retention of the high tax, while Messrs. Felder, Wise, of Fayette, Anderson of Chatham and others were equally determined in the other direction.

The house passed bills to make drunkenness and disorder on public highways a misdemeanor; to increase the salary of the attorney general; to provide for additional superior judges; to make it a felony to shoot or throw rocks into a passenger train; to require sheriffs to keep bloodhounds; to make city and county bonds acceptable as deposits by insurance companies; to revise the military laws of the state, and various other measures of wide general importance.

Rheumatism.

When pains or irritation exist on any part of the body, the application of Sloan's Liniment gives prompt relief. W. Sullivan, proprietor Sullivan House, El Reno, O. T., writes, "I take pleasure in recommending Ballard's Snow Liniment as I was afflicted with rheumatism for three years, and it is the only remedy I have found that gives immediate relief." Killed Wife Through Mistake.

Knoxville, Tenn., August 21.—Harvey Mize, a citizen of Bennett, Tenn., a little mining town in Campbell county, near LaFolette, Tenn., shot and instantly killed his wife mistaking her for a burglar. Mrs. Mize had gone to the rear of the house to secure a drink of water for her little girl, who was ill. While letting down a window the noise awoke her husband who was sleeping on a couch in the room. Seeing the shadow of a person before him, he seized a 45-caliber Colt's pistol and fired. His wife fell to the floor gasping for breath and died without being able to speak a word. The father and little daughter are crazed with grief.

Carload of Hymn Books.

Cincinnati, August 21—The largest single shipment of a religious publication ever known, according to the book publishers, was made when the Methodist book concern sent a freight car containing 21,184 copies, the first consignment of the new Methodist hymnal to the branch house in Chicago. The new hymnal is the only one on which the two Methodist churches, North and South, have united since 1846. The book contains 717 hymns and comprises 600 pages.

A Warning to Mothers.

Too much care cannot be used with small children during the hot weather of the summer months to guard against bowel troubles. As a rule it is only necessary to give the child a dose of castor oil to correct any disorder of the bowels. Do not use any substitute, but give the old-fashioned castor oil, and see that it is fresh, as rancid oil nauseates and has a tendency to gripe. If this does not check the bowels give Chamberlain's Colic, Cholera and Diarrhoea Remedy and then a dose of castor oil, and the disease may be checked in its incipiency and all danger avoided. The castor oil and this remedy should be procured at once and kept ready for instant use as soon as the first indication of any bowel trouble appears. This is the most successful treatment known and may be relied upon with implicit confidence even in cases of cholera infantum. For sale by all druggists.

U. S. Treasury Official Dies.

Portland, Ore., August 21.—Milton Brown, of Buffalo, N. Y., chief special agent for the United States treasury department exhibit at the Lewis and Clark exposition, is dead in this city of typhoid fever. Mr. Brown had been employed in the same capacity at the expositions at Buffalo, Charleston and St. Louis. It has not yet been decided whether he will be buried at Seattle, Wash., or Buffalo, N. Y.

Governor Frazier In Auto Wreck.

New York, August 21.—An automobilist said to have been Governor Jas. B. Frazier, of Tennessee, suffered a wreck on a steep hill near W. K. Vanderbilt's Idle Hour estate, at Oakdale, L. I. The automobilist was buried in a swamp and escape severe injury because of the soft mud. A rear wheel of the car was torn off and it was otherwise injured. The owner continued on his journey by rail.

Another Good Man Gone Wrong.

He neglected to take Foley's Kidney Cure at the first signs of kidney trouble, hoping it would wear away and he was soon a victim of Bright's disease. There is danger in delay, but if Foley's Kidney Cure is taken at once the symptoms will disappear, the kidneys are strengthened and you are soon sound and well. A. R. Base of Morgantown, Ind., had to get up ten or twelve times in the night, and had a severe backache and pains in the kidneys, and was cured by Foley's Kidney Cure. J. W. McCollum & Co.

J. W. Wells, Jr., of Worthington Springs, one of the clever managers of the Worthington Springs hotel and property, was in the city yesterday. Mr. Wells states that the springs, which were badly overflowed from the effects of the constant rains, have resumed their normal condition, and that the guests are beginning to assemble at this popular resort again. The season has been very successful with the exception of the short time the springs were overflowed, and many who went for relief from rheumatism and other causes have been benefited.

On opening up a special tour through Middle and South Florida the renowned eye and nerve specialists, Dr. E. H. Armstrong and staff, will be at the Brown House in Gainesville on September 13th and 14th. The Doctor, when here recently, made many friends and accepted many patients. All former patients are requested to report at the hotel for a re-inspection of their cases. Regular tours of the entire State will be made every three months and all cases taken are cared for, free of additional charge, for the period of one year. Watch for further notice.
